

Product description	M8 female cable connector, Contacts: 3, not shielded, moulded on cable, IP67, UL listed, PUR black, 3 x 0.34 mm²
Area	M8 series 718
Order number	77 3406 0000 50003-0200

Security notices

The connectors are designed for use in plant, control system and electrical equipment. The end user is responsible for checking whether the connectors are suitable for use in other applications.

Connectors with degree of protection IP 67 and IP 68 are not suitable for use under water. When used outdoors, the connectors must be separately protected against corrosion. For further information about IP degrees of protection refer to 'Technical support' in the Download Centre.

To lock the cable connector to the equipment connector, the threaded ring is tightened until it is 'finger-tight' (approx. 50 cNm).
